

**THE FLORIDA BAR**

# **Results of the 2011 Survey of Florida Registered Paralegals**

**April 2011**

## **BACKGROUND**

As part of the evaluation that is required for all Florida Bar programs after their initial three years, the Program Evaluation Committee of The Florida Bar Board of Governors initiated a thorough review of the Florida Registered Paralegal program during the 2010-11 Bar year. The primary purpose for these types of evaluations is to review the program's charter, mission, goals and objectives, and then conduct performance measurements to assure that the program is fulfilling its objectives and functioning in the most efficient and effective manner.

As an important facet of this particular evaluation, the Program Evaluation Committee wanted to learn more about the level of satisfaction that FRP members are having with the program, as members who utilize the various program services and benefits are a great resource to provide feedback on what is currently working effectively, what might need some improvement, and what additional items or benefits should be added in the future.

At its January 27, 2011 meeting in Tallahassee, the Program Evaluation Committee (PEC) unanimously approved a request that The Florida Bar immediately undertake a survey of Florida Registered Paralegals. A questionnaire was drafted for the approval of the PEC Subcommittee handling the evaluation and, after their review and approval, the questionnaire was made available to the full sample of Florida Registered Paralegals with email addresses on file with The Florida Bar.

On February 28, 2011, The Florida Bar's Department of Research, Planning & Evaluation emailed a link to an online survey to 4,028 Florida Registered Paralegals. By the cut-off date on March 9, 2011 the Bar had received 1,995 completed questionnaires, for an excellent response rate of 50%.

Using a statistical analysis computer program entitled SPSS, The Florida Bar's Department of Research, Planning & Evaluation coded and entered all completed surveys, verified data for accuracy and completeness, and applied the appropriate statistical tests to the data.

### **SAMPLE**

For this survey of Florida Registered Paralegals, the error of estimation rate is approximately plus or minus 2 percent at the 95 percent level of confidence. This signifies that we can be 95 percent sure that, if all Florida Registered Paralegals were interviewed, the results would be within plus or minus 2 percent of what this sample found. If, for example, a question achieved a percentage breakdown of 75 percent in favor, it can be interpreted that between 73 and 77 percent of Florida Registered Paralegals are in favor.

In reporting the results, all percentages were rounded to the nearest whole percent (example: 74.5% equals 75%). For this reason, totals may not all equal 100 percent. Note that several questions are "multiple response questions." This means that respondents were encouraged to check all responses which apply to a given situation. Thus, multiple response questions will not total 100 percent.

To provide the reader with a much more comprehensive view of what respondents dislike most, or value least, about their Florida Registered Paralegal membership, 20 randomly selected responses are displayed below for each of the four most frequently mentioned categories.

**Nothing/no dislikes**

(532 responses) (20 randomly selected responses displayed below)

- \* At the present time nothing.
- \* Can't think of anything at all.
- \* Can't think of anything negative.
- \* I am unable to describe any dislike I have at the current time.
- \* I am unable to think of one reason that I do not value the membership for.
- \* I do not dislike anything at all about the membership.

- \* I have not come across anything yet to dislike.
- \* I have not found anything of significance that I dislike about the FRP membership yet.

- \* I think all the benefits are worthwhile.

- \* I value everything thus far about the Florida Registered Paralegal membership.
- \* No dislikes.
- \* Nothing I can think of.
- \* Nothing so far - it has been great!
- \* Nothing. I like everything about the FRP status.
- \* Nothing. I just posted my FRP credits this morning and it was very easy and the website was very user friendly.
- \* Obtaining this certificate has only brought positive results.
- \* There is no downside that I can think of.
- \* There is nothing that I dislike, or value least about my membership.

**Cost of CLE/membership**

(273 responses) (20 randomly selected responses displayed below)

- \* Although continuing legal education is extremely important, it is somewhat expensive.
- \* Cost is high when you are required to personally pay for your membership (which I do).
- \* I believe that the cost of the membership is a little high.
- \* I do feel that the annual cost of membership is excessive in these economic times. If The Florida Bar could reduce the costs (even if only by a little), it would certainly help many paralegals like myself who pay for the membership out of our own pockets, without law firm assistance. We pay for continuing education seminars in addition to the membership fee to continue to be eligible for membership. Please consider these expenses when reviewing the budget for this program.
- \* I get nothing for the cost of membership. The CLE seminars provided through the Bar do not provide a discount for paralegal members. We are expected to pay the same price as the attorneys and my firm does not pay for my seminars.
- \* I want to learn more, but many of the courses are not price structured for a paralegal's salary range.
- \* I wish it wasn't so expensive to maintain. The classes seem expensive.
- \* In this economy, it is very hard to afford the fees for the memberships and the continuing education.

- \* Many of the CLE courses are priced for attorneys. My firm does not pay for CLE courses and it is difficult to find courses I can afford on my salary.
- \* The cost - it is nearly two days of my salary, and I am the sole support for my family of three.
- \* The cost and that we have to pay for CLE.
- \* The cost for the classes to obtain the CLE credits. I wish that there were more free options and/or lower cost.
- \* The cost is a little high, especially for those of us that must pay for it ourselves.
- \* The costs associated with the CLE conferences. My law firm does not assist me in payment of same.
- \* The downside is the cost of membership, along with the added costs of the workshops, seminars and CLE credit courses.
- \* The expense of the dues and CLE.
- \* The Florida Bar offers no discounts on CLE even though a paralegal traditionally earns a small percentage compared to an attorney's salary.
- \* The outrageous cost of \$150 per year. We are paralegals, not highly paid attorneys.
- \* The yearly cost of \$150.00. If my firm did not pay for this fee, I personally would not be able to afford it.
- \* What I don't like is the cost for the continued education. I don't know how long I will be able to keep my license as I don't know if I will be able to afford the classes. Also, the cost to renew your license is very high. I would like to see the cost cut in half.

**Not enough CLE seminars/opportunities**

(132 responses) (20 randomly selected responses displayed below)

- \* I dislike the fact that The Florida Bar refuses to offer any continuing education specifically for paralegals/FRP's.
- \* I wish that there were more available seminars for CLE hours, especially in my practice group of Corporate and Securities.
- \* I work a good amount of hours and having to make time for the CLE classes can be tough. I only take them for the credits, not because I get a lot out of the actual classes. I

have only taken, like one CLE that I found really useful. I know a lot of other paralegals feel the same way.

- \* I would like to see CLE offered specifically for the paralegal through the Bar. I've found that the courses I've taken so far, while very informative and helpful, are geared toward lawyers and are not as beneficial for paralegals. Also, the locations of these courses are very limited -- it is too wasteful in both time and money for me to take time away from work to travel to the locations where they are offered. Our firm is specialized and there are not too many CLE's offered that apply to what our firm practices. I'm not going to waste time and money on a course in an area of law that we do not practice, so if possible, I'd like to see a few courses added specifically for civil litigation.
- \* It has been most difficult to get CLE hours completed and I may lose my membership because of it.
- \* It is difficult to attend seminars/programs because of my time constraints and the fact that my employer is not willing to permit day of the week programs, etc.
- \* Lack of CLE opportunities geared towards paralegals.
- \* Limited continuing education for paralegals.
- \* Most of the events run into evening. It is difficult for those with kids to attend.
- \* Not as many continuing legal education seminars as I would like to see in areas that are most beneficial to paralegals.
- \* Not enough CLE courses offered (in my area at least).
- \* Not enough educational opportunities (CLE programs) specifically for paralegals.
- \* Not enough Florida Bar endorsed CLE seminars.
- \* Not enough seminars for continuing education.
- \* That I am not always able to take the courses to gain extra CLE credits when necessary. This is partly because it's hard for me to find care for my kids at some of the times that are proposed on some of the seminars.
- \* The CLE courses I've seen aren't tailored for a paralegal.
- \* The difficulty in finding affordable live CLE seminars within a reasonable distance of Pensacola, Florida. It is especially difficult to find seminars that do not take place during the work (billing) week. I am more than willing to attend a seminar on a Saturday rather than lose valuable billing time during the week.

- \* There are no CLE programs offered exclusively for paralegals.
- \* There are not enough CLE classes advertised to keep up with the requirements.
- \* Unavailability of more intermediate level continuing legal education courses for paralegals.

**Amount of CLE that is required/the ability to meet the requirement**

(109 responses) (20 randomly selected responses displayed below)

- \* 30 hours of CLE requirement.
- \* Finding time for the CLE credits.
- \* Having the same CLE requirements as lawyers without having the resources for CLE credits as available to lawyers.
- \* Having to complete the CLE hours. But, I have to admit, I do learn new things from the seminars.
- \* Having to do as many CLE courses as the actual attorney.
- \* Having to obtain the same amount of CLE's as attorneys.
- \* I dislike that I am required to have 30 hours of continuing education. An attorney is required the same training as a FRP, however, paralegals do not make as much salary and if I am required to pay for the classes, it can cause a strain.
- \* Meeting the large continuing education requirements.
- \* So many CLE credits.
- \* The 30 credits required.
- \* The amount of CLE hours required.
- \* The amount of CLE required hours.
- \* The amount of CLE's you have to have.
- \* The amount of continuing education required.
- \* The fact that you have to meet the same CLE requirements that attorneys do is not fair. Our jobs do not pay nearly as much as the attorneys and our firms do not always pay for all of our CLE's. For some paralegals that may be going through financial hardship, this will be tough to comply with.

- \* The requirement to accrue 30 hours of CLE credit. I have to make time to attend the seminars that are not held locally. I get more out of attending the seminars in person rather than taking them online and online seminars are too expensive.
- \* Too many CEU's.
- \* Too many CLE credits.
- \* What I dislike the most is having to complete the 30 CLE hours because it becomes costly.
- \* Working full time, it is difficult to get 30 hours of CLE.

<u>Category</u>	<u>Number of Responses</u>
None/can’t think of any	269
Improved or additional FRP search capabilities	54
Additional CLE/educational opportunities	35

To provide the reader with a much more comprehensive view of what features, not currently on The Florida Bar’s website, respondents would like to see added in the near future, 20 randomly selected responses are displayed below for each of the three most frequently mentioned categories.

**None/can’t think of any**

(269 responses) (20 randomly selected responses displayed below)

- \* Cannot think of any.
- \* Fine as it is.
- \* I cannot think of any. I am pleased with the website.
- \* I cannot think of anything right now.
- \* I can't think of any.
- \* I have no additional features to offer.
- \* I have none in mind.
- \* No better ideas.
- \* No thoughts at this time.
- \* None at this time.
- \* None known at this time.

- \* None that I can think of.
- \* None.
- \* Nothing at this time.
- \* Nothing comes to mind.
- \* Nothing right now, the website is very helpful and informative.
- \* Present features are OK.
- \* There is nothing I can presently think of.
- \* Unknown at this time.
- \* Your website is great.

**Improved or additional FRP search capabilities**

(54 responses) (20 randomly selected responses displayed below)

- \* A feature to search for paralegals like how you can search for attorneys, i.e., by their names.
- \* A name search feature for Florida Registered Paralegals similar to that used for looking up attorney members.
- \* A standard name search for FRP's similar to what is offered for attorney searches.
- \* Alphabetical search is tedious, as each page must be opened before proceeding to the next, e.g. If I were looking for a person named Stewart, I'd have to manually page through all the "S" listings starting with "Sa" until I reached Stewart. This gets immensely frustrating.
- \* Expand searching for FRP's by typing a name and not scrolling through the alphabet which is extremely inefficient. This is computer science, not science fiction. Join the 21st century.
- \* Make it easier for FRP's to search for other FRP's. I usually have to Google "Florida Bar Paralegal" to find the link to the paralegal login since it's not very obvious on the Bar home page where to go.
- \* I think a good optional tool would be if web searches for registered paralegals could be done by using their Bar number.

- \* I think that FRP's should be able to be looked up individually rather than having to scroll through an alphabetical list. Potential employers may want to instantly verify the FRP verification rather than spend several minutes searching through the list.
- \* I was looking for a co-workers name under the alphabetical listing. Her last name starts with a "C" and since there was, only an arrow-indicating page forward or page backward I had to "flip" through several pages before I came to her name. Maybe there should be a "search" box so one can search by either the first name or last name and arrive at the paralegal's name much quicker than having to go page by page.
- \* I would like to be able to search Florida Registered Paralegals by name. My practice is focused in Commercial Litigation. I would like to be able to confirm whether my peers on the other side of my cases are Florida Registered Paralegals and download their contact information, as we are able to do for attorneys.
- \* I would like to be able to search for a Florida Registered Paralegal by name in a manner similar to searching for an attorney.
- \* I would like to see a "Paralegal" or a "Search for a Paralegal" section added. When my prospective employer went to check my FRP status, I actually had to show him how to navigate the site.
- \* Improve FRP name search so as to only have to enter complete or partial name, and not need to scroll through entire first letter to find query.
- \* It was still very time consuming to search alphabetically. There should be an option to type part of the last name. Otherwise, you have to continue to hit "next page". I recently just became registered so I am not familiar with all of the benefits at this time.
- \* It would be easier if the search feature for FRP's were similar to the one for attorneys with fields for input. Searching through all FRP's in Tampa, for instance, was time consuming.
- \* On home page of the webpage, there is a link to "Find a Lawyer," I would like to see a link that states "Find a Paralegal." One does not know that such a link is available without a lot of switching pages. Also, perhaps there is a way to connect paralegals and attorneys in the webpage and for them to view a paralegal's credentials.
- \* Please, please, instead of just the letter, have a search engine that allows us to simply type the last name of the paralegal. Right now, we click on the letter and it takes FOREVER to get to the individual that we are searching for. Also, we need more active county involvement.
- \* Searching for paralegals is still difficult. Need to be able to refine searches by zip code or specific individual.

- \* The FRP search should mimic the attorney search and offer the same features, i.e. downloadable contact card.
- \* To be able to search for a member by name. It takes too long to find someone either alphabetically or by city because you have to scroll until you can get to that person and if you do not know the exact spelling of that person's name, you are not going to find them.

- \* Listings of reduced cost or discounted CLE programs.

- \* More Florida Bar approved CLE courses just for paralegals, or in conjunction with attorney seminars.

**16. In your opinion, what is the most important issue impacting paralegals today?**

**(1,112 responses received)**

A total of 1,112 respondents reported what they believe is the most important issue impacting paralegals today. Each response was reviewed and categorized. The table below lists the five most frequently mentioned categories.

<u>Category</u>	<u>Number of Responses</u>
CLE programs/educational opportunities	165
Distinguishing between paralegals and legal assistants/secretaries	120
Recognition/acknowledgement of paralegals	110
Salary/compensation/benefits	109
Job stability/security/market	94

To provide the reader with a much more comprehensive view of what FRP members believe is the most important issue impacting paralegals today, 20 randomly selected responses are displayed below for each of the five most frequently mentioned categories.

**CLE programs/educational opportunities**

(165 responses) (20 randomly selected responses displayed below)

- \* Ability to take quality CLE courses.
- \* Advanced continuing education. Most of the continuing education that is being offered is too basic.
- \* Affordable, accessible education.
- \* Availability of continuing education.

- \* Continuing education. Particularly in the area I work in, estate planning and probate, immediate knowledge of changes in federal tax laws and changes in the Florida Probate Code and Florida Trust Code are crucial.
- \* Education and the expense of obtaining CLE credits. Paralegals are charged the same price as attorneys, yet we earn substantially less money.
- \* Educational opportunities.
- \* Enhancing education and keeping up with it.
- \* Enough CLE programs dealing with support staff issues.
- \* For me, affordable and convenient education opportunities.
- \* I believe there should be more seminars directed to paralegals.
- \* More affordable CLE seminars.
- \* More available seminars and continuing legal education.
- \* More cost effective continuing legal education.
- \* More legal education.
- \* Most of the continuing education classes are geared for attorneys.
- \* Need more CLE opportunities for paralegals.
- \* Not having enough continuing educational programs for the paralegal. There are many seminars on legal aspects geared towards the attorney, however, it would be beneficial to have basic, intermediate and advanced courses in everyday techniques, handling clients, caseload files, discussing files and pertinent information with the busy attorney, as well as properly addressing sensitive material.
- \* Obtaining quality continuing education that is applicable to developing practical skills.
- \* Staying updated through continued legal education.

**Distinguishing between paralegals and legal assistants/secretaries**

(120 responses) (20 randomly selected responses displayed below)

- \* Attorneys continuing to use FRP's as legal secretaries.
- \* Being recognized for qualifications and not being lumped in with legal assistants/secretaries.

- \* Clearly distinguishing between certified or registered paralegals and then also between paralegals and office staff. I believe there should be more clarity between the terms of secretary, legal assistant and paralegal.
- \* For paralegals to stand apart from legal secretaries or legal assistants.
- \* I think too many paralegals are still being used as legal assistants and they are not being utilized to their fullest potential in firms.
- \* In my opinion, the most important issue impacting paralegals today is the lack of stature of the paralegal in a law office. In other words, there is little difference between the job description and the pay of a "legal assistant" and "paralegal", even though the paralegal has obtained the appropriate, additional education and credentials. We have a long way to go in order to distinguish between the two positions and treating the paralegal as the professional they are.
- \* Making us legal billing professionals with a way to distinguish us from that of legal assistants/secretaries.
- \* Not being treated as career professionals, but as secretaries.
- \* Some attorneys are still not utilizing paralegals to their fullest extent. I am seeing paralegals doing the same work as a legal secretary. I am also seeing legal secretaries using the paralegal title and doing clerical work only.
- \* Still the separation of legal secretaries/legal assistants from paralegals.
- \* That anyone can call themselves a paralegal. It makes it complicated that you can have varying degrees of paralegals out there - those with no certifications whatsoever, those with national organization certifications (NALA) and those with state certifications (FRP). You do not know if the "paralegal" you are working with knows their stuff, or is really just a glorified secretary or legal assistant.
- \* The blending of legal secretary and paralegal positions.
- \* The confusion between the use of the "legal assistant", "paralegal", and "legal secretary" names.
- \* The days of separation between secretary and paralegal are over. I believe it is way too easy to call yourself "paralegal" and be accepted as such even though you may not be in any way qualified to call yourself "paralegal". Other than the qualifications such as CLA and FRP, there is no distinction. I personally feel I have earned the right to be paid according to my experience/qualifications, but I am not sure employers/attorneys make that distinction.

- \* The difference between a secretary, legal assistant, and a paralegal.
- \* The distinction between legal assistants, secretaries, and paralegals.
- \* The separation of the duties and functions of the paralegal in the law firm from those of a legal secretary or other assistant position. In a way, education of attorneys is necessary to most efficiently utilize their paralegal's skills and education.
- \* The term "paralegal" is used so loosely that anyone working for a lawyer for a few years can call themselves a paralegal. I actually spent the time and money to go to college and get a degree in paralegal studies. Now, it doesn't really mean anything because everyone calls themselves a paralegal whether they really are one or not. There should be some delineation between secretaries/assistants and those of us who have actually studied and worked to be "paralegals".
- \* There seems to be attorneys who feel the need to utilize paralegals as secretaries (a two-for-one, if you will) and this should not be. FRP's and CP's are not to be used in this fashion and awareness is required.
- \* Understanding the difference between paralegal and legal assistant.

### **Recognition/acknowledgement of paralegals**

(110 responses) (20 randomly selected responses displayed below)

- \* Acknowledgment and respect from attorneys -- I have not met one YET who gives us the credence we deserve. Paralegals are to the law field what Physician Assistants are to the medical field. While doctors have richly embraced the P.A. and value them as a colleague, the same is NOT true with attorneys and paralegals.
- \* Being recognized as more than an "assistant".
- \* Getting recognition for the education and/or experience that we put in.
- \* I believe there is not enough recognition. Paralegals make the firm.
- \* Importance of being recognized by employers.
- \* Lack of recognition.
- \* Not enough recognition for the hard work we do.
- \* Not getting enough recognition for the work they perform.
- \* Not recognized or appreciated for our education.

- \* Paralegals today are at times not respected as legal professionals. Many people under appreciate their knowledge and hard work. This program makes it a bit more official and may help paralegals be recognized as part of the legal community.
- \* Recognition as a professional. I do not consider myself a "clerical" worker and would not work in a capacity where I was considered both a secretary and paralegal. Although I do some clerical work, such as typing, I am considered a paralegal and valued for my knowledge and experience. However, I do not get the perks that attorneys get even though I do equivalent work.
- \* Recognition by all attorneys of our professional value to their practice.
- \* Recognition by attorneys of the value of the work performed by paralegals, as well as recognition of a paralegal's value to their clients.
- \* Recognition in the community.
- \* Respect and acknowledgment from lawyers.
- \* Respect and recognition for the position.
- \* Respect for what we do; the fact that although most of us have not been to law school, we have the intelligence and drive to be "right arms" to our attorney employers. So many times, I have heard my colleagues tell me that they have performed very in-depth and complicated research for their attorneys, only to find out that the attorney has taken all of the credit!
- \* That paralegals should be recognized as an important part of the attorney's practice in representing their clients.
- \* The recognition that we deserve.
- \* There is often a lack of acknowledgment and/or appreciation for the work we do.

**Salary/compensation/benefits**

(109 responses) (20 randomly selected responses displayed below)

- \* Being compensated for their value.
- \* Competitive salary and benefits based on experience.
- \* Lack of pay for the workload.
- \* Low salaries.
- \* Overworked and underpaid.

- \* Pay scale.
- \* Poor salary.
- \* Poor salary. We should be compensated more than just a legal secretary.
- \* Salaries.
- \* Salary basis.
- \* Salary caps from employers.
- \* Salary does not equal years of experience.
- \* Salary is the most important issue impacting paralegals today. Some paralegals are making \$100,000, while others are barely making \$30,000.
- \* Salary range. I do not think paralegals get the deserved salary that aligns with experience and caseload. I am in-house so it is a bit different than firm paralegals, sometimes in-house does not receive overtime, other times we are not included in pertinent decision making. While in-house paralegals handle different aspects of cases and still provide great service to the corporation and legal department; they are overlooked. In-house paralegals are a different breed but we work just as hard as outside counsel paralegals.
- \* Salary. Overworked and underpaid.
- \* Salary; low wages.
- \* The salaries that employers are using as a base salary is way below what it should be, even in today's economy.
- \* Tremendous workload without even compensation.
- \* Wages.
- \* We need a more equitable pay scale which reflects our abilities and contributions. Law firms bill a fair amount for paralegal time, yet the pay for such work is not really in line with what is billed. Also, because most paralegals are women, we still make 75% of what a man would make in a similar professional capacity.

### **Job stability/security/market**

(94 responses) (20 randomly selected responses displayed below)

- \* As the job market changes, more firms are looking for timekeepers rather than clerical. I want to be as hireable as possible in case I need to find a new job.
- \* Benefits shrinking and job security in a bad economy.
- \* Downsizing, i.e. layoffs due to the economy and firms hiring legal assistants to perform the paralegal job so they can keep their costs down.
- \* Finding jobs.
- \* Getting and keeping a job in the industry.
- \* In today's economy, I think one of the big issues is the job market - how to set yourself apart, how to market yourself and probably most important, how to compete in the global market and going contract vs. full time.
- \* Job availability and job security. Hopefully FRP classification will allow attorneys and law firms to hire and keep employed FRP's in a tight economy.
- \* Job market and cutbacks.
- \* Job security.
- \* Jobs being filled by less experienced workers to cut costs.
- \* Lack of employment opportunities due to the economic situation, and devaluation by some firms of the paralegal's contribution to the firm.
- \* Law firms that are cutting paralegal positions and replacing them with attorneys.
- \* Loss of jobs. I have seen two paralegals let go in our office with no notice and no severance.
- \* Not enough jobs in the marketplace.
- \* One of the issues of concern in South Florida is the fact that paralegals find themselves competing for jobs with newly graduated attorneys who are not able to find a job in their profession.
- \* Staying employed in today's job market.
- \* The economy and the resulting diminishing of employment opportunities.

- \* The job market, should anyone be laid off and need to find new employment.
- \* The job market.
- \* The lack of available jobs in particular areas of law.

**17. How can The Florida Bar make FRP membership more valuable to you?**

**(787 responses received)**

A total of 787 respondents reported how The Florida Bar can make FRP membership more valuable to them. Each response was reviewed and categorized. The table below lists the four most frequently mentioned categories.

<u>Category</u>	<u>Number of Responses</u>
Additional CLE/educational opportunities	160
Nothing/no suggestions/TFB is doing a good job	153
Lower costs of membership/offer discounts on CLE costs	128
Better educate attorneys/public about Florida Registered Paralegals	48

To provide the reader with a much more comprehensive view of the responses related to how The Florida Bar can make FRP membership more valuable, 20 randomly selected responses are displayed below for each of the four most frequently mentioned categories.

**Additional CLE/educational opportunities**

(160 responses) (20 randomly selected responses displayed below)

- \* A wider variety of CLE courses for FRPs such as guardianship, estate planning, and probate.
- \* Additional CLE courses.
- \* By elevating the level of educational programs tailored to paralegals.
- \* By offering more CLE courses/seminars directed specifically to FRPs for the credits we are required to have in order to keep our FRP registration and to make those courses affordable.
- \* By offering more paralegal based seminars - right now they are too few and far between.
- \* By providing CLER opportunities for paralegals.

- \* CLE opportunities.
- \* I feel that most of the Bar's emphasis is on litigation paralegals. More seminars and educational materials for transactional paralegals (real estate, corporate) would be helpful.
- \* I have a hard time finding good continuing education.
- \* I think the Bar should realize that not all paralegals are NALA or NFPA members and that the Bar should not limit CLE credits to only programs that are either offered by the Bar, NALA or NFPA. I also think the Bar could do better job of creating more educational opportunities (seminars, etc.) just for paralegals.
- \* I would like to see more CLE courses offered to FRP's.
- \* More CLE offerings specifically geared toward paralegal tasks and case involvement.
- \* More educational opportunities.
- \* More seminars for attorneys and paralegals.
- \* Offer more CLE courses for paralegals.
- \* Offer more CLE courses geared toward the paralegal profession.
- \* Offer seminars more specifically related to paralegals. Ethics, etc.
- \* Offer seminars to FRPs.
- \* Offering more CLE credits for solely paralegals.
- \* Provide CLE seminars on important topics and various fields in which FRPs are utilized.
- \* Seminars for paralegals continuing education.

**Nothing/no suggestions/TFB is doing a good job**

(153 responses) (20 randomly selected responses displayed below)

- \* At this point in time they are doing a good job.
- \* Cannot think of anything.
- \* Do not have any suggestions at this time.
- \* I am satisfied with all of the membership benefits that we have.

- \* I am satisfied with what has been done so far.
- \* I am very happy with my membership as an FRP and cannot think of anything that could be done differently.
- \* I am very satisfied with my FRP membership.
- \* I cannot think of anything at this time.
- \* I cannot think of anything that would increase its value. I value my membership and am very proud to be a Florida Registered Paralegal.
- \* I do not know. I think it is doing a fine job.
- \* I don't know. It provides great benefits currently.
- \* I have no complaints and consider it quite valuable as it is.
- \* I think being a member is valuable enough.
- \* I think that The Florida Bar is doing an excellent job.
- \* It is already a valuable asset in our profession.
- \* Keep doing what you are doing.
- \* Keep up the good work.
- \* Nothing else. You are doing a good job.
- \* Nothing that I would change.
- \* So far, it meets the value which I require.

**Lower costs of membership/offer discounts on CLE**

(128 responses) (20 randomly selected responses displayed below)

- \* Cut costs.
- \* Discounted rates for CLE seminars.
- \* Discounts on continuing education and more educational opportunities for education.
- \* Fund or discount association membership dues for paralegals whose attorneys do not pay for them.

- \* Give good discounts in continued education.
- \* If the cost was less.
- \* In this economy, make it less expensive for the CLE hours.
- \* Include discounts for seminars if you are a FRP.
- \* It would be nice if the fees were lower, or in the alternative, that more CLE courses for paralegals were available at no charge through the website.
- \* Less costly seminars, CD's, etc.
- \* Lower cost for paralegals participating in CLE courses.
- \* Lower the cost and provide low-cost CLE in order to provide the training that paralegals need, both to maintain FRP status and to strengthen their skill and knowledge base. I do not think everything is about cost, but this program needs to be more accessible to beginning paralegals whom may or may not have jobs in the legal field that pay competitive salaries.
- \* Lower the cost of membership.
- \* Make CLE's easier to attend/more affordable. Make membership more affordable.
- \* More reasonable costs for attending seminars.
- \* Offer discounts for government employees. The State of Florida currently does not "recognize" my FRP status in any way, yet I still pay for it out of my pocket.
- \* Provide more free or discounted CLE courses for obtaining the required credits. They are a bit pricey.
- \* Reduce price.
- \* Reduce the cost of membership, renewal, and a reduced rate to attend the CLE courses.
- \* Reduce the fees for seminars. Reduce the annual dues. We do not earn nearly as much as attorneys and they are not paying for our seminars.
- \* Reduced prices for attorney seminars so that paralegals may attend at a reasonable cost. Many law firms do not pay for any CLE for a paralegal.

**Better educate attorneys/public about Florida Registered Paralegals**

(48 responses) (20 randomly selected responses displayed below)

- \* Add more communication to the legal community about proper utilization and compensation of paralegals. Thank you!
- \* Advise attorneys that paralegals are a valuable part of the legal profession. Still have some attorneys that will not respond to phone calls from paralegals on a professional level. They will only talk to the attorneys on the case.
- \* Better educate attorneys and the public as to what "FRP" stands for and why.
- \* By educating attorneys and the public as to what an FRP actually is.
- \* By helping employers understand how more valuable a Florida Registered Paralegal is to their firm!
- \* Educate attorneys of the benefits to their practice of having a FRP on staff. In addition, educate attorneys as to the differences between paralegals and legal assistants.
- \* Educate the attorneys and law office managers regarding FRP, and encourage them to support and finance their paralegal's membership.
- \* Educate the attorneys to know how to make the best use of the knowledge and experience of the paralegal.
- \* Educating attorneys on the benefits of having Certified/Florida Registered Paralegals.
- \* Educating the attorneys on the value they should receive from the paralegal that is associated with The Florida Bar.
- \* Education to the attorney members of the Bar about the importance of the paralegal profession. Attorneys and firm administrators need to be educated about the requirements that paralegals need to have in order to renew their memberships.
- \* I think the biggest thing would be educating attorneys. I feel that, often, there is a complete disconnect between the paralegal (as a profession) and the attorney (as a profession). Often the women's initiatives are only focused on female attorneys. Professional paralegals also have families, schedule conflicts and, while attention is given to women attorneys, female paralegal issues are ignored.
- \* I think The Florida Bar should educate attorneys on the importance of having a certified paralegal and/or FRP and why it is valuable and beneficial to them and their practice.
- \* Increased education and better distinction about those who are registered and those who are not.

- \* Instruct attorneys to value their paralegals, especially those that have their FRP's and to consult their cases with them in order to ensure the quality of work and rules of professional conduct is enforced in the work place.
- \* It would be nice if The Florida Bar would suggest to attorneys that they look to hire paralegals with an FRP. I think that would help give a bit more value to the FRP.
- \* Make attorneys more aware of this designation. Attorneys in my office would not be aware of FRP status had I not explained it to them.
- \* Make it more valuable to the community of lawyers. If the attorneys don't value it, what is the incentive?
- \* Remind attorneys that Florida Registered Paralegals should be allowed to attend their local bar events.

**No suggestions/none**

(67 responses) (10 randomly selected responses displayed below)

- \* At this juncture, I have no other thoughts, comments or suggestions.
- \* Can't think of anything.
- \* Everything is O.K.
- \* I cannot think of anything right now.
- \* I have no concerns at this time.

- \* None.
- \* None at present.
- \* None at this time.
- \* Not at this point.

**Lower costs of membership/CLE**

(21 responses) (10 randomly selected responses displayed below)

- \* As we do not make nearly the income as most attorneys, I feel that FRPs should get discounts for the seminars and we should not be paying the same price as the attorneys.
- \* Cost is the issue when having to pay for membership, CLE, etc. I know of several paralegals that have been replaced with non-titled assistants at a lower cost to employers.
- \* Encourage employers to pay or share in the cost FRP, state, and local association dues.
- \* I am worried what the next step will be for paralegals. Will we have to have some type of insurance? If this is not about money, then the dues should be reduced to an amount more affordable for all. Although my dues will be paid through my T&E, that just means less money for seminars that I feel could benefit me more.
- \* I have so many friends who have lost their jobs in this economy. It is sad to me that it is like a lifeline cut off. If some kind of hardship program for those in this situation were offered it would be helpful, such as free or discounted CLE or membership, and extension of FRP status to those who are not in an office but who continue to take CLE classes.

- \* I will be much happier if I do not need to pay my membership fees and CLE.
- \* In programs that are offered by The Florida Bar for CLE credits, paralegals are charged just as much, and sometimes more, for the same CLE courses offered to attorneys. In providing CLE programs, The Florida Bar needs to consider the financial circumstances of the participants. Rates for paralegals should be significantly lower than the rates for the attorneys. For this reason, many paralegals struggle to maintain their CLE credits as required.
- \* It would be beneficial if CLE providers kept in mind that quite a few Florida Registered Paralegals incur all membership and CLE costs themselves. Many of the seminars, classes, etc. are simply too expensive on a paralegal's salary.
- \* It would be nice if things were a bit more affordable. Most employers have not given raises in years and have cut back on allowances for further education. The CLE's can be quite expensive. More affordable alternative would be a nice option.
- \* Please lower the cost of membership or reduce the amount of credits necessary to complete the renewal; I cannot afford both.
- \* Renewal fees should be paid 12 months out vs. just a few months after the application date, or provide a reduced fee for the first year if the renewal date falls within a few months of the application date.
