And I would especially like to thank the board and event committee for all of their hard work on this event. They attended weekly meetings, came early to set up and will be here after to help clean up for today's event. BCACL has an amazing team and I am so grateful for your dedication to this organization.

We are here to recognize the Judicial Assistants, General Magistrate Assistants and Hearing Officer Assistants for all the hard work they do to keep the courts running smoothly. They're the ones who are always on top of things, well informed, organized. They're dependable, trustworthy, honest. They coordinate the scheduling of trials, motions and court hearings. They communicate with the public. They are the glue that holds everything together, totally invaluable and irreplaceable. And they do the hardest job of all, deal with us attorneys!

Because of all they do, Brevard County Association for Women Lawyers, the attendees here today and our sponsors for this event, would like thank you.

We also have a small token of our appreciation for each Judicial Assistant, General Magistrate Assistant and Hearing Officer Assistant. We would like to recognize the assistants in attendance today, so please come forward when we call your name and please stay for a photo. Thank you all again for all that you do!
